CALL FOR PAPERS: European First Year Experience

On June 15th-17th 2020 Aarhus University will be hosting the **European First Year Experience Conference (EFYE)**. We invite all interested to submit their proposal to the conference.

The overall theme of the EFYE2020 conference is **“One for all – all for one”** highlighting that both first year students, older students, academic teachers and administrative staff all have an important part to play in integrating the newly arrived students in the best possible way.

The conference addresses three subthemes:

- Being and becoming a first year student
- Teaching first year students
- Supporting the transition

[Read more about the themes of the conference.](#)

Through keynotes, paper sessions, workshops, show-and-tell and poster sessions participants will get rich opportunity to share and expand their knowledge and experiences on giving first year students the best possible start of their time at university. We hope to create an inspiring and worthwhile conference where participants can expand their network of peers and associates across Europe.

Call for papers: Proposals can be submitted until January 15th. Abstracts are invited for paper sessions, workshops, show-and-tell sessions and poster presentations.
